

Clémence Lemaire Courageux

Software Engineer former Senior UX/UI Designer, 10+ years in digital product

(+49) 176 3069 8393 clemence.lc@proton.me linkedin@clemencizm portfolio@clemence

Software Engineer and coding bootcamp graduate (Le Wagon, 2024), with 10+ years of prior experience in UX/UI, complemented by experience in product ownership. I design and build interfaces with Nuxt.js/TypeScript, from mockup to deployment (Clever Cloud). Attentive to accessibility, SEO, clean component architecture, and speed load.

Technical Skills

Frontend : Nuxt.js, Vue.js, JavaScript, TypeScript, HTML5, CSS3/Sass, Tailwind

Data & Processing : JSON, Fetch/ API REST, Python

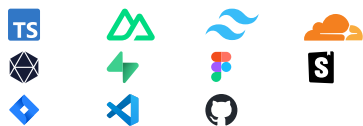

Deployment : CleverCloud, Vercel

Quality : Accessibility, SEO, Responsive design, Design Systems, Storybook

Design : Figma

Collaboration : Agile/Scrum, Git, GitHub, VS Code, Jira, Notion

- French native
- Spanish fluent
- English advanced
- German B1 (Intermediate)

Some Projects

Parlez-vous Français ? - plateforme media / E-learning

[project link](#)

Designed and developed the site: content architecture (podcast, interactive quizzes, newsletter), third-party integrations (Substack, session booking, audio platforms). 520+ active newsletter subscribers.

NUI Vocab App - vocabulary-learning tool

[project link](#) — DEMO

Iterative development in JavaScript/TypeScript: progressive exercise logic (multiple choice, fill-in-the-blank with hints), state management via localStorage, dynamic level/topic filters. Built a Python data-cleaning pipeline (raw → script → clean → quality review → production JSON). Optimized mobile UX (keyboard navigation between fields, handling of accented characters). Architecture designed with future evolution toward a PWA in mind.

Allemagne Pratique - content site for a nonprofit organization

[project link](#)

Content architecture (event calendar, categorized articles, search), SEO optimization, responsive design.

Experience

Jan. 2024 – Development of entrepreneurial and nonprofit projects

Independent & volunteer • Berlin

Developed websites with Hugo and Nuxt.js, with an architecture designed to evolve toward PWAs (NUI, conceived as an alternative to a native App Store app).

Jun. 2023 – Nov. 2023 — Lead UX/UI Designer, Product Owner

EST Digital GmbH • Berlin • Tourism

- Oversaw API integration to turn a website into an e-commerce platform
- Oversaw implementation of product detail and checkout pages, working closely with the dev team

Jan. 2022 – Mai 2023 — Lead UX/UI Designer

Hotelplan Group • Berlin • Vacation rentals

- Collaborated with the product owner and developers on complex features (2FA authentication, dashboard, inbox)
- Built the design system used across three digital products, designed for smooth handover to development

Avr. 2019 – Nov. 2019 — Senior UX/UI Designer

Boston Consulting Group (BCG) • Madrid • Finance, E-learning

Designed dashboards and AR/VR concepts in a fast-paced environment

2015 – 2019 — UX/UI Designer, Frontend

Indigo, Steelmood • Mexico City, Seville • Tourism, Resource Planning

Designed and implemented frontend (HTML, CSS, jQuery) for SaaS tools and booking systems

2007 – 2017 — UX/UI Designer, Frontend

Freelancer • Paris, Mexico City, Seville • Tourism, Hospitality, Medical

Designed and built responsive websites (Wordpress)
